

Bulletin No: 01

LRW/25/10/14/01

COLOR: **Amber**

Advisory for Heavy Rain

Issued by the Natural Hazards Early Warning Centre

Issued at 05.00 p.m. 14 October 2025, valid for next 12 hours

For Western, Sabaragamuwa, North-western provinces and Galle, Matara districts

PLEASE BE AWARE!

The Intertropical Convergence Zone (ITCZ) is currently influencing the weather over the island.

Showers or thundershowers will occur at most parts of the island. **Heavy showers above 100mm** are likely at some places in Western, Sabaragamuwa and North-western provinces and in Galle and Matara districts.

Therefore, general public is advised to take adequate precautions to minimize damages caused by heavy rain, strong winds and severe lightning during thundershowers.
