

Based on the current data analyzed from the river gauges maintained by the Irrigation Department within the Kalu Ganga basin, it has been observed that the existing flood situation in the **low-lying areas of the Kalutara, Ingiriya, Horana, Dodangoda, Millaniya, Bulathsinhala, Palindanuwara, Madurawala, and Agalawatta Divisional Secretariat Divisions in the Kalutara District** areas susceptible to flooding from the Kalu Ganga may escalate into a Considerable Flood Situation in the coming period. Residents living in these areas, as well as drivers and passengers traveling through the affected regions, are strongly advised to remain vigilant and act with caution. **The Disaster Management authorities are also urged to take necessary preparedness and response measures regarding this situation.**
